Response to Arguments

1. Applicant's arguments have been fully considered but they are not persuasive.

As per applicant's argument that the cited prior art does not disclose transmitted parameter values over an internet. The examiner notes that Kleider may be connected to the internet. Therefore both the transmitter and receiver are part of the internet (because they are connected to it). Transmitting data from one to the other would be 'via an internet'.

As per applicant's argument that Kleider does not disclose transmitting 'parameter values' from a receiver to a transmitter, the examiner disagrees. Kleider discloses a receiver indicating to a transmitter (via 'parameter values') that correspond to the evaluation of a received signal.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Jamal whose telephone number is 571-272-7498, and whose email address is alexander.jamal@uspto.gov

The examiner can usually be reached on M-F 8AM-5PM.
If attempts to reach the examiner by telephone or email are unsuccessful, the examiner's supervisor, Curtis A Kuntz can be reached on 571-272-7499.
